EcoFlow

Air₂O Packaged Closed Loop
Economizer Solution

Custom Engineered
Thermal Management Solution for Data Centers

Product Description

Packaged, 100% return, closed loop economized, mission critical system with DX trim. Available in either rooftop and slab mount (perimeter) configuration. Three modes of operation:

- Full economization
- Hybrid, DX and Economized
- Full DX

Optional adiabatic assist in all 3 modes

Features and Benefits

R454b

PUE as low as 1.1

100% Return Air

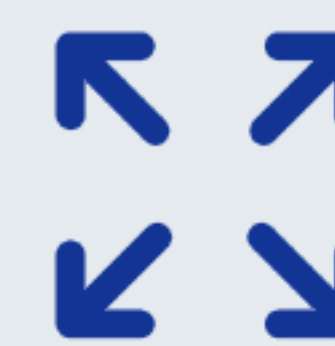

Waterless - Zero WUE

Easily Maintained
& Serviced

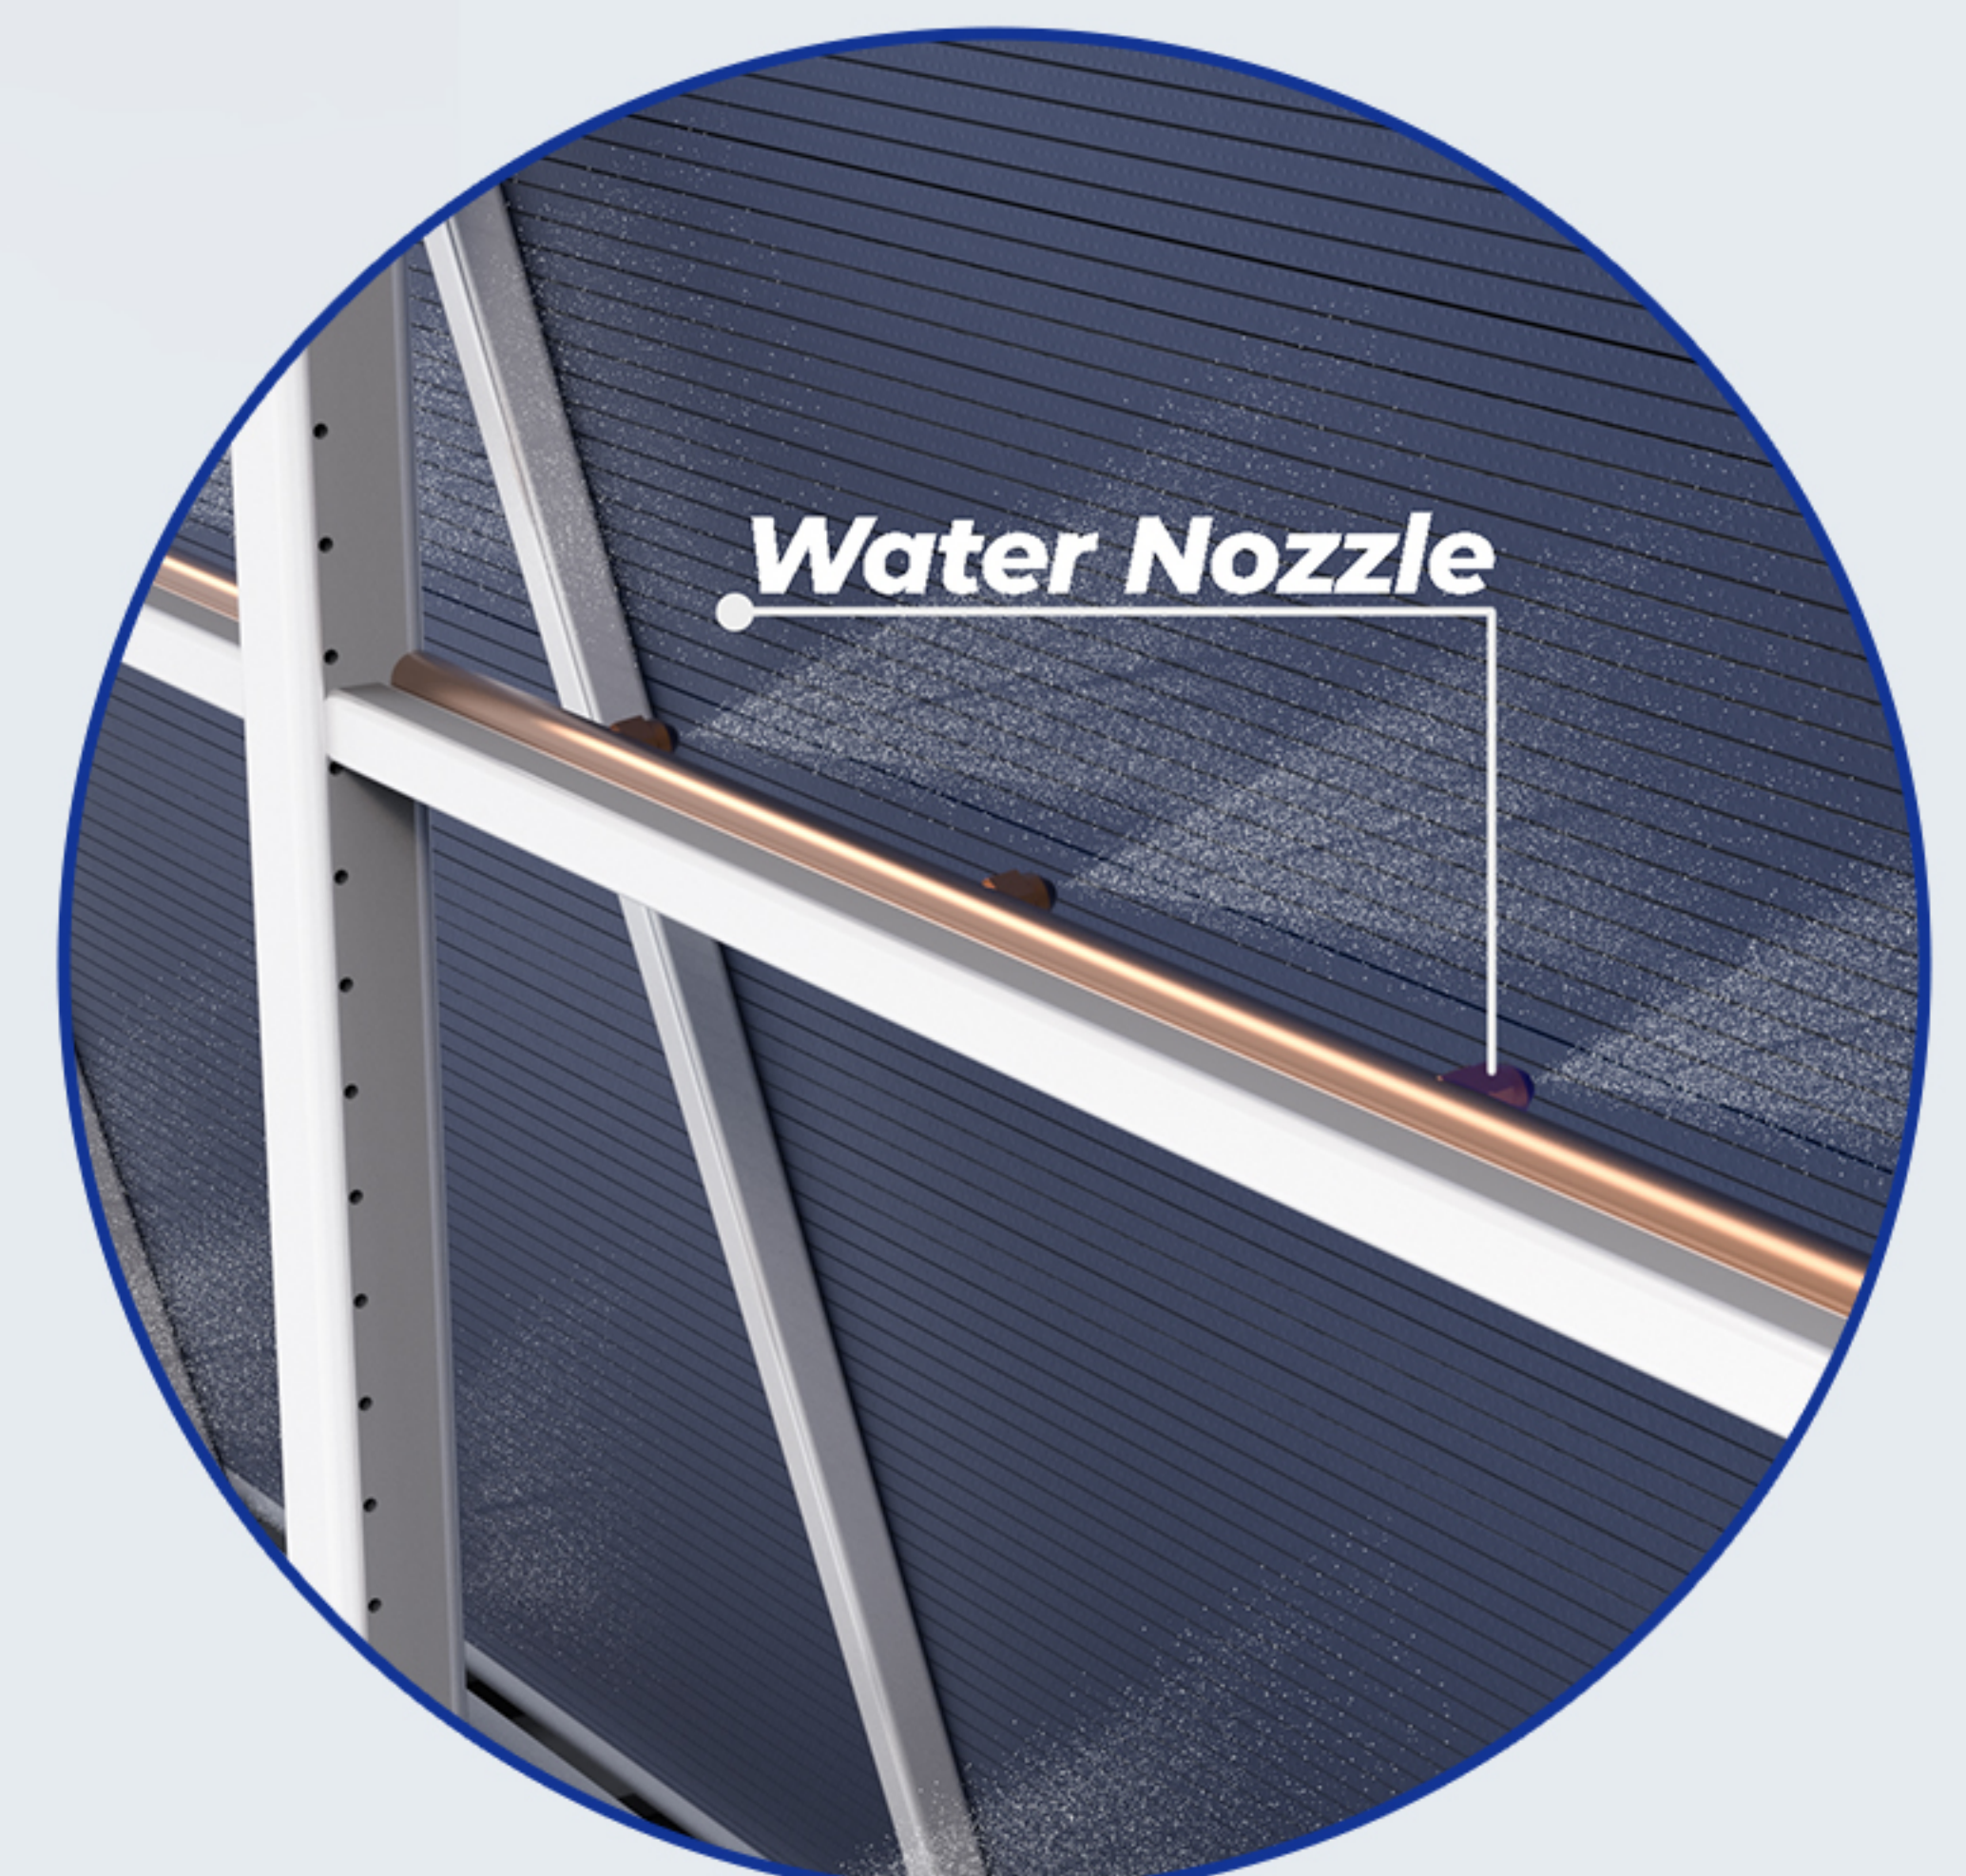

Commonly Available
Components

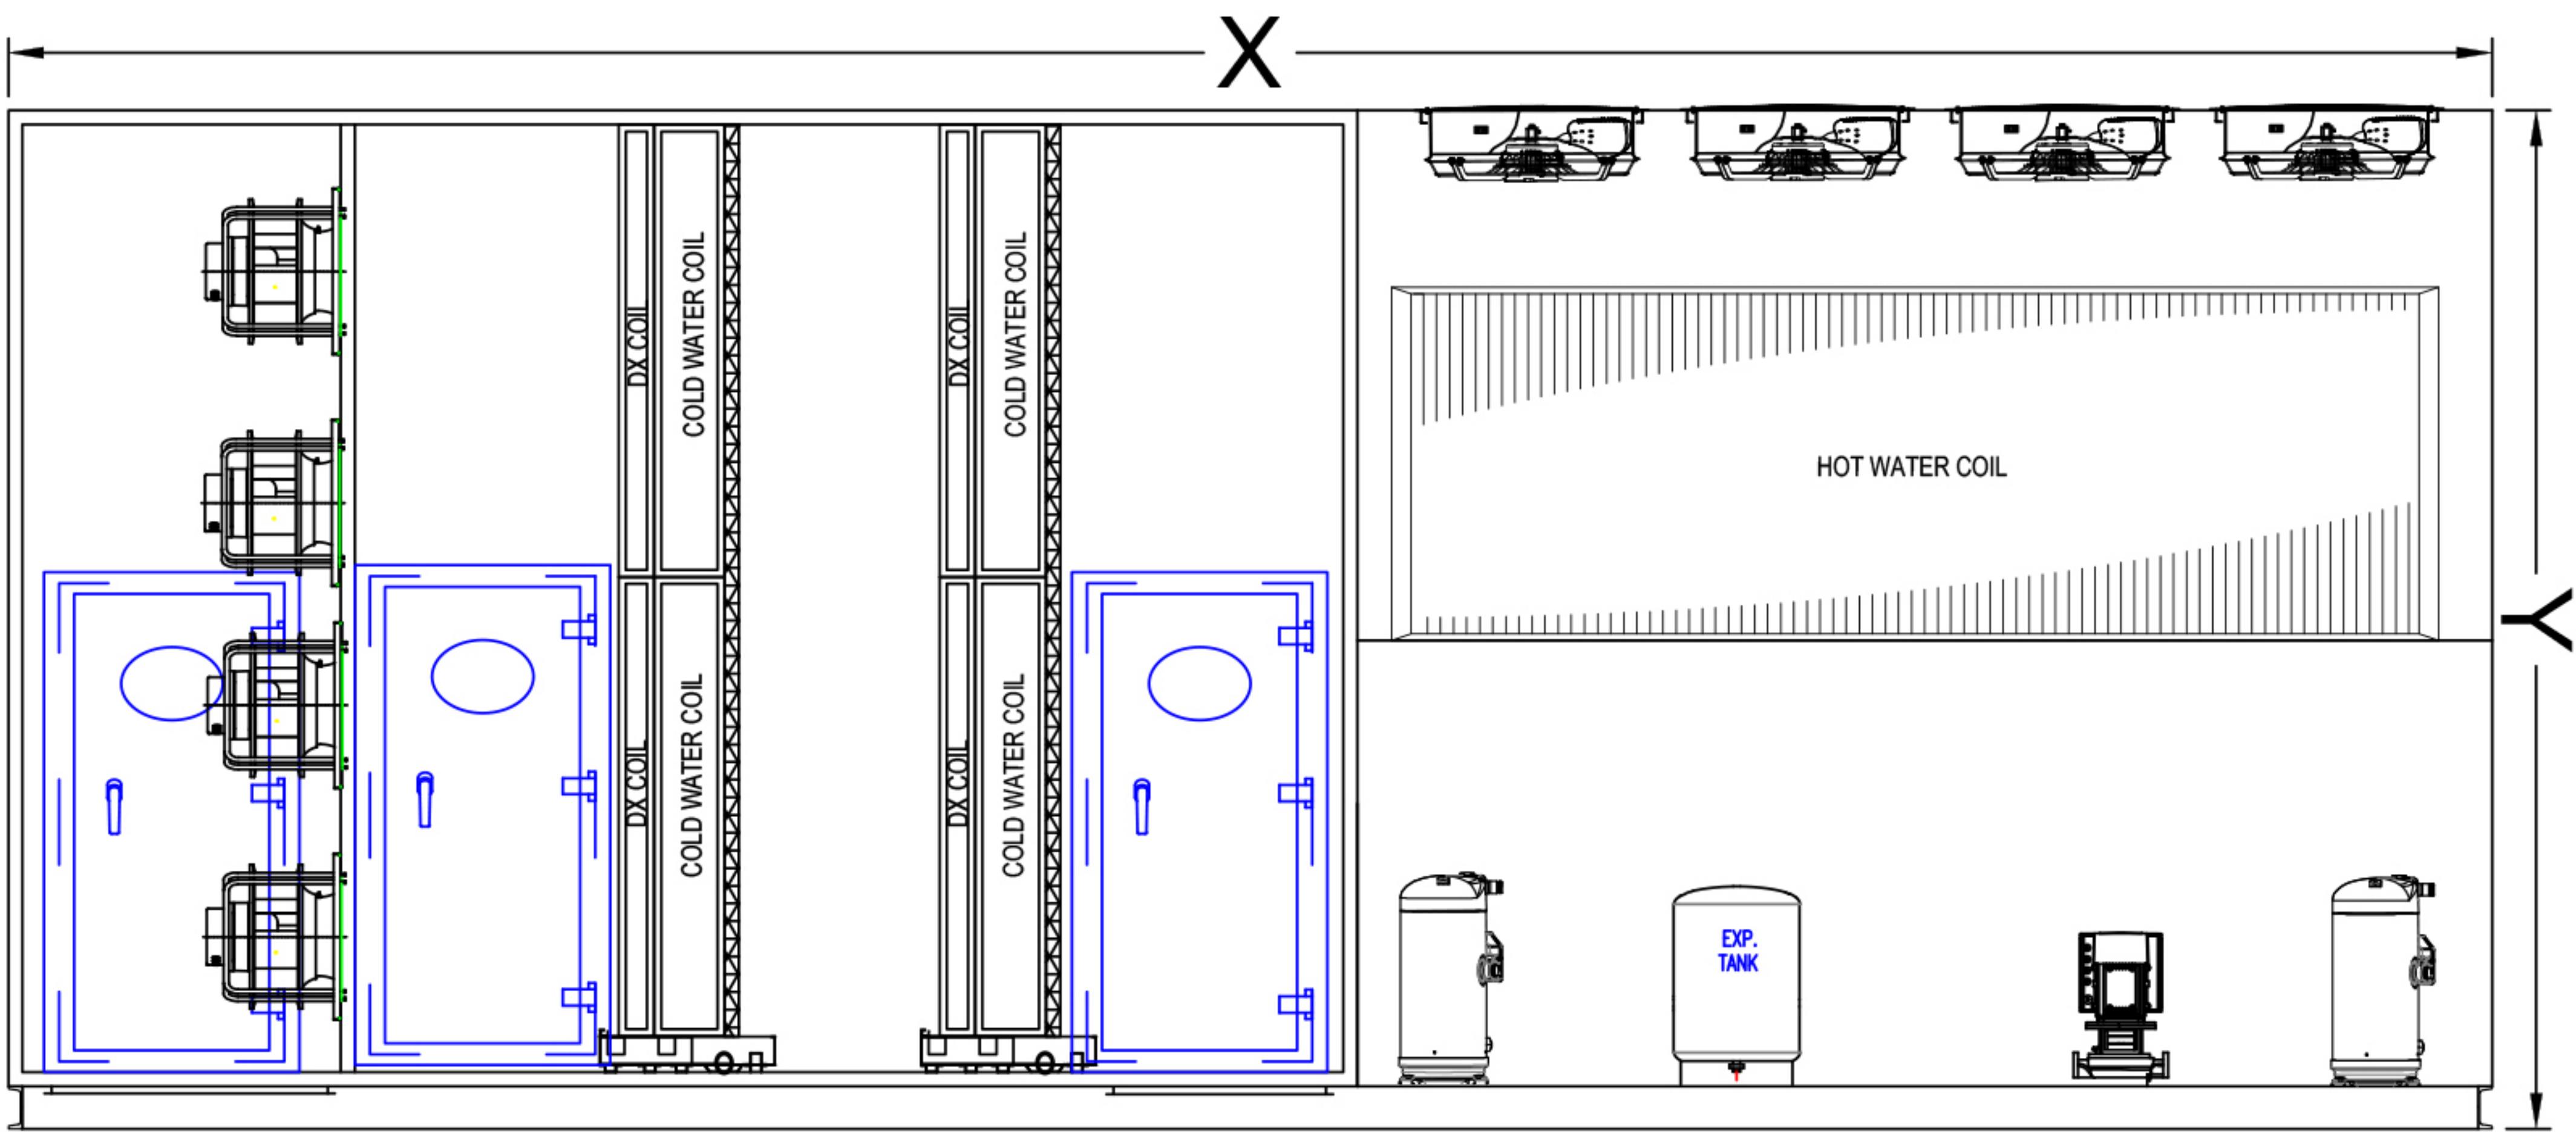

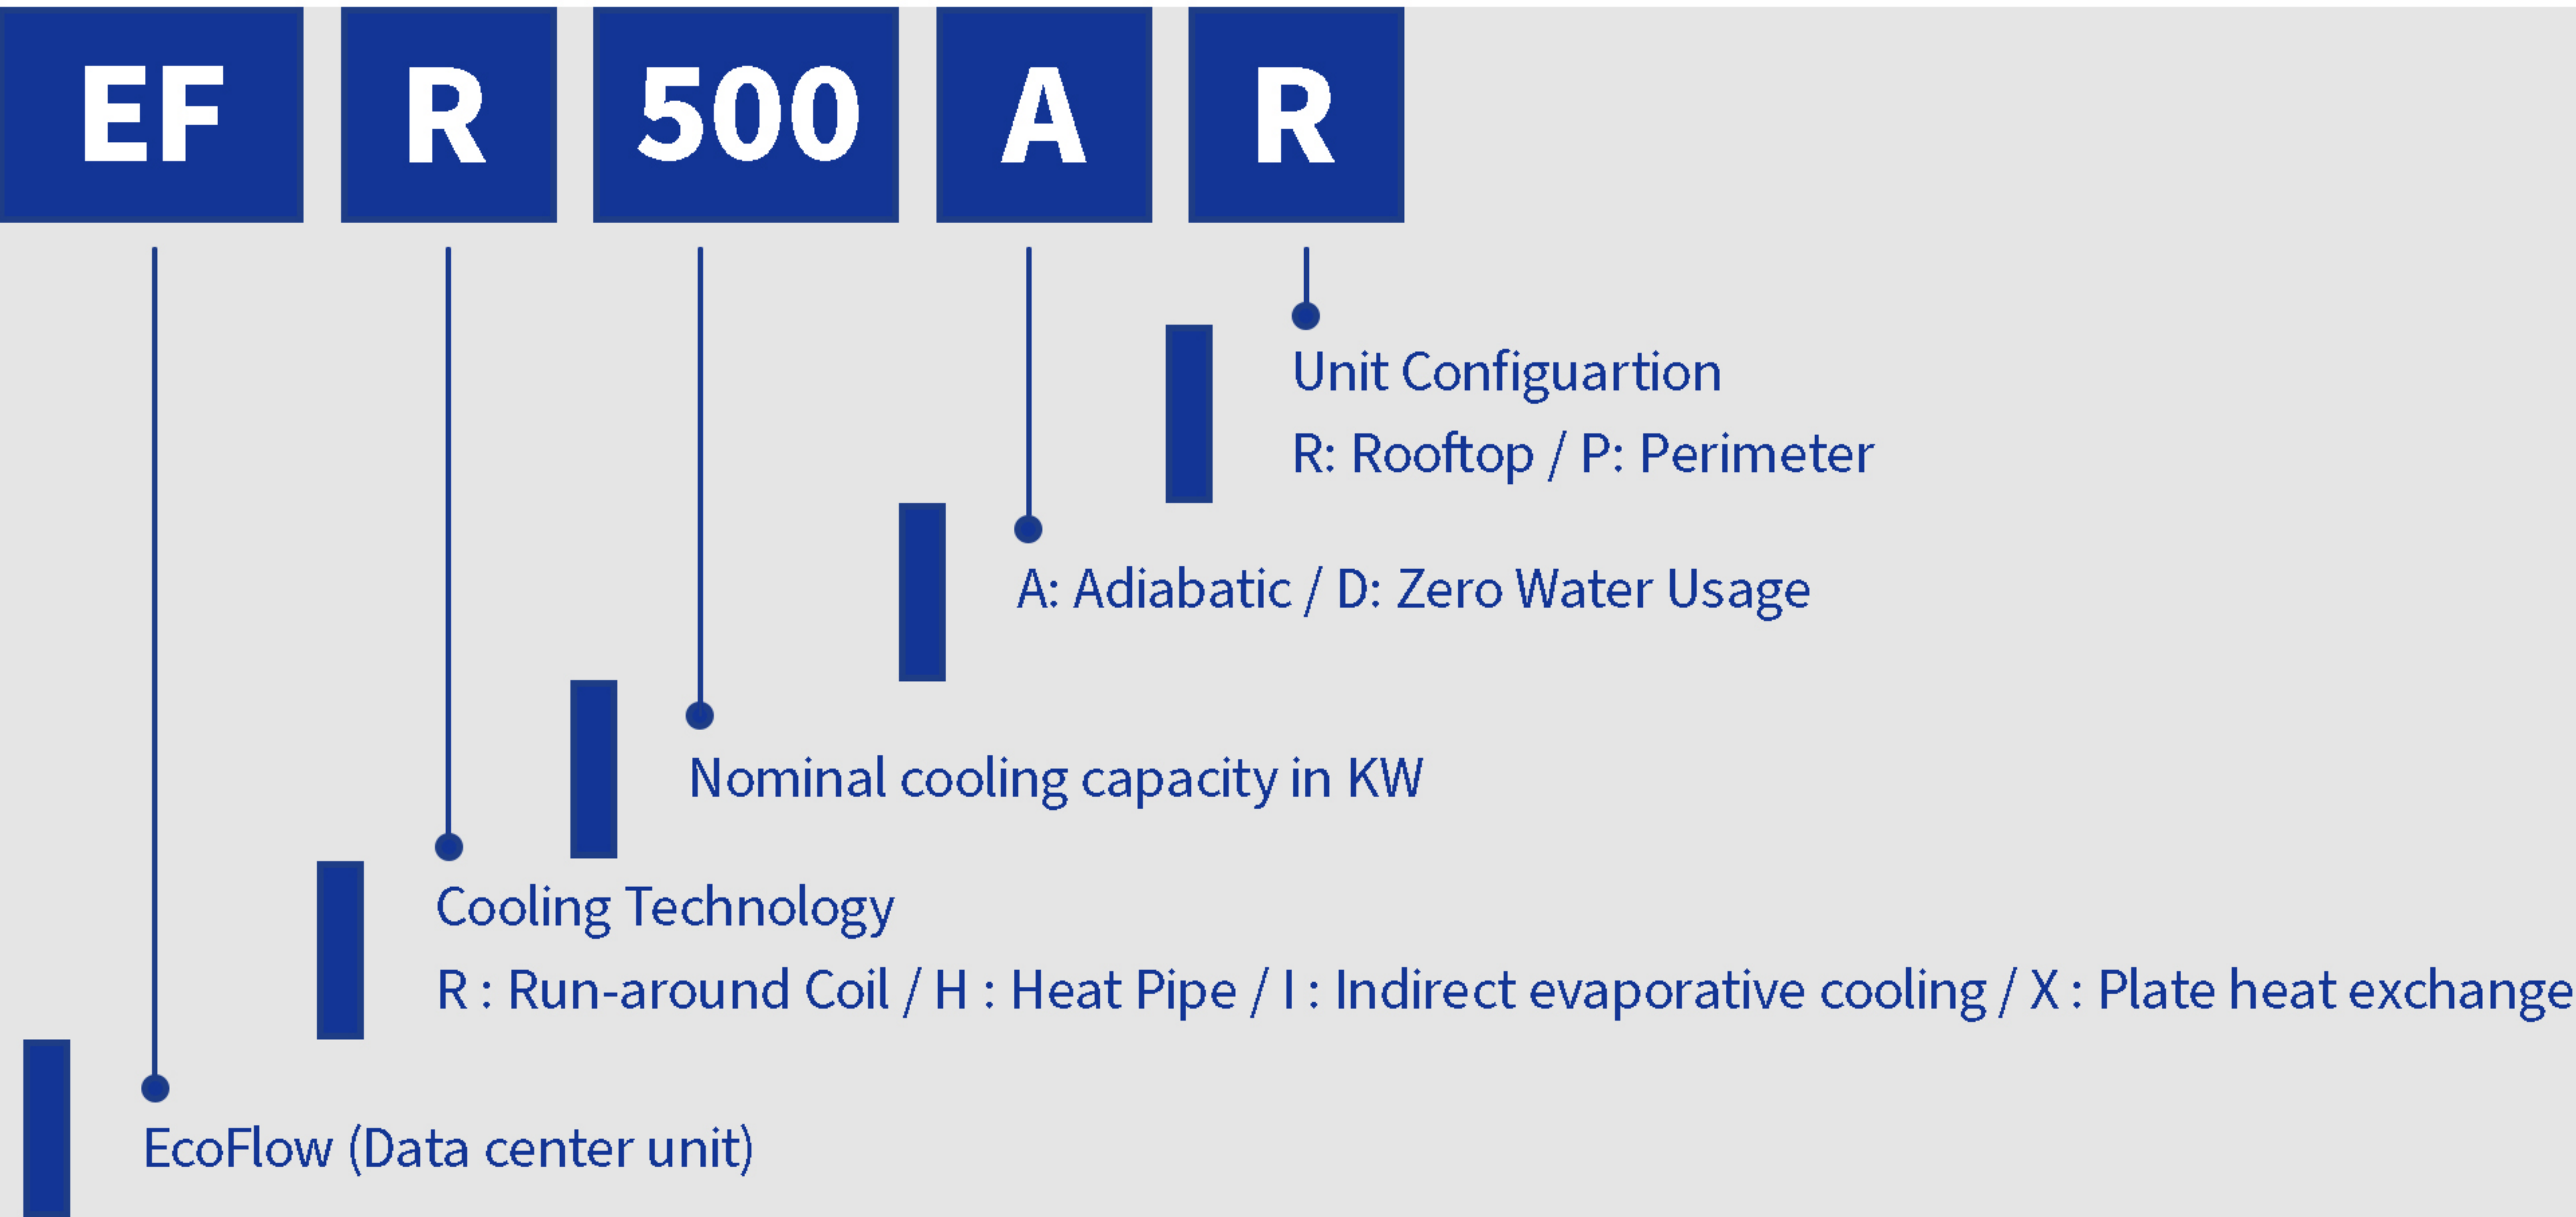

Scalable

Optional Evaporative Cooling Assisted

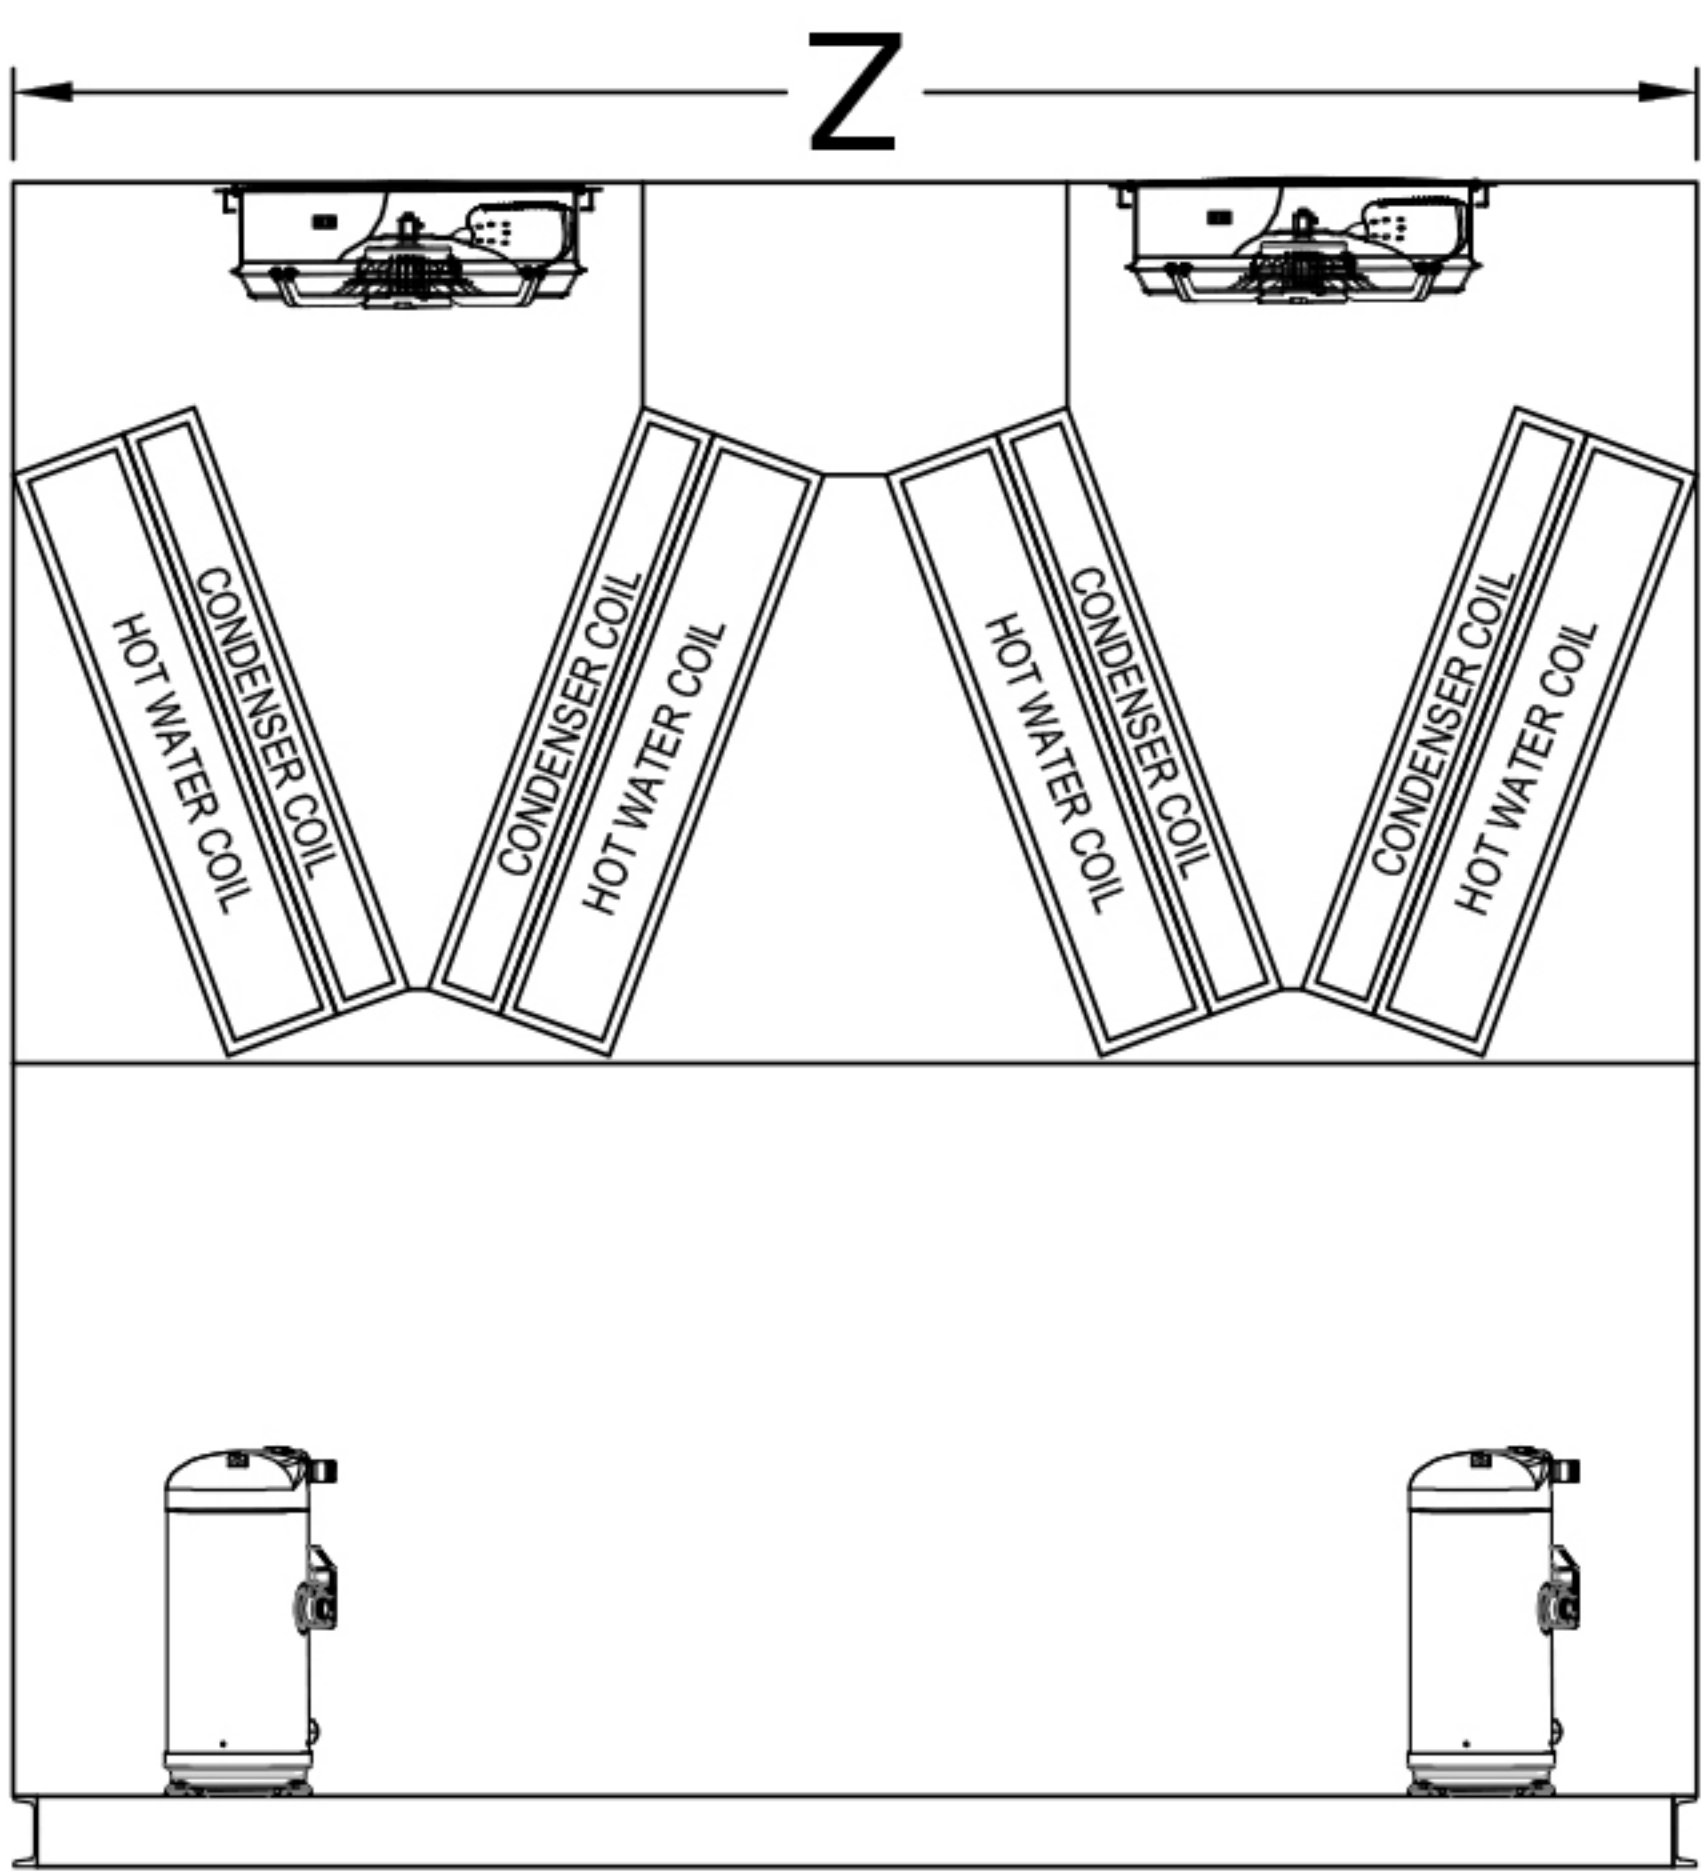

Adiabatic assistance - either as power saving mode, (utilize as little power as possible) or in water saving mode, (utilizing evaporative system only when needed.)
